Technische Informationen

PUxI wall distributor "MEGA 16 Phase"

Equipment:

- input via screw connection M 32 above (blind screw connection M 32 below)
- output: 2 CEE socket 16A 400V
- 1 circuit breaker 16A 3-pole C 4 Schuko sockets 230V
- 2 circuit breakers 16A 1-pole C with FI 40A 4-pole 0.03A over all outlets.
- PCE sockets ABB safeguards.

To safeguard against external influences, these are installed under a transparent and impact-resistant polycarbonate cover.

Our covers are extremely robust, even at the lowest temperatures, and have excellent heat resistance.

All sockets are equipped with self-closing hinged covers made of impact-resistant polyamide 6. To ensure weather resistance and strength, all external metal parts and cover screws are made of stainless materials.

ALL wired distributors of the BRAND PUxI are individually tested.

Upon request, we will send you a test report. Our products are verifiably MADE in GERMANY

legal notes

Do not throw extensions in the trash! According to the law on the placing on the market, the return and the environmentally friendly disposal of electrical and electronic equipment (ElektroG), power tools that are no longer usable must be collected separately and recycled in an environmentally friendly manner!
