Technische Informationen Our PUxI wall distributor MEGA ULTIMATE MEGA is ready wired and ready to use. Manufactured in GERMANY with renowned brand manufacturers Siemens Schütz and Mennekes sockets, the Mega Ultimate is our high performance model. All installed protective switching devices have a touch protection according to DIN VDE 0106 PART 100.

As with ALL our wall-mounted distribution boxes, all sockets are equipped with self-closing hinged lids made of impact-resistant polyamide 6, giving it super weather resistance and strength for outdoor use.

All external metal parts as well as cover screws are made of stainless materials. ALL wired distribution boxes of the BRAND PUxI are unit tested. We will send you a test report upon request. Our products are verifiably MADE in GERMANY
